

CURRICULUM VITAE

Name: Lars Ragnar Lundell

Date of birth: 3.11. 1946

Qualifications: M.D., Medical Faculty, University of Lund, Sweden 1975
Ph.D., Medical Faculty, University of Lund, Sweden 1975
Reader in Physiology 1976

Academic title: Professor of Surgery, Karolinska University Hospital –
Stockholm, Sweden

Present appointment: Section for upper GI surgery, Division of Surgery, Center for
Digestive Diseases, Karolinska University Hospital, Huddinge,
Stockholm, Sweden

Previous appointments:

House-Officer: Department of Surgery, University of Lund, Sweden

House-Officer: Department of Surgery, Central Hospital Borås, Sweden

House-Officer: Department of Surgery, Central Hospital, Jönköping, Sweden

Senior House-Officer: Department of Surgery, Central Hospital, Jönköping,
Sweden

Registrar of Surgery: Department of Surgery, Central Hospital, Jönköping,
Sweden

Consultant in General Surgery: Department of Surgery, Sahlgrenska
University Hospital, Sweden

Reader in Physiology: Institute of Physiology, University of Lund, Lund,
Sweden

Chairman: Section of upper G-I and emergency surgery, Sahlgrenska
University Hospital, Gothenburg, Sweden

Associate professor of Surgery: Section for upper GI and Emergency Surgery, Department of Surgery, Sahlgrenska University Hospital, University of Gothenburg, Gothenburg, Sweden

Present position: Professor of Surgery, Department of Surgery, Center for Digestive Diseases, Karolinska University Hospital, Stockholm, Sweden

Present position: Honorary guest professor, University of Southern Denmark, Odense Denmark

Publications:

Until today more than 250 publications within the following scientific fields:

Intramucosal mechanisms involved in the regulation of gastric acid secretion

Pathophysiological mechanisms involved in peptic ulcer disease

Medical and surgical treatment of reflux esophagitis

Mechanisms involved in the pathogenesis of reflux disease

Treatment of carcinoma of the esophagus and gastroesophageal junction

Treatment of carcinoma of the stomach

Treatment of pancreatic carcinoma

Surgical treatment of morbid obesity

Treatment and course of haemorrhage of the upper GI-tract

Treatment of Hepatobiliary malignancies

Supervisor for the following MD, PhD thesis:

Hans Lönroth 1990 "Histamine metabolism in the human gastric mucosa"

Monica Sjövall 1991 "Mechanisms regulating human gastrin release induced by gastrin releasing peptide"

Magnus Ruth 1991 "Gastroesophageal reflux and respiratory disorders"

Bengt Liedman 1996 "Short and long-term consequences of gastrectomy for gastric carcinoma"

Göran Hasselgren 1998 "Peptic ulcer bleeding. Towards improved outcome"

Fil kand Rolf Carlsson 1998 "Gastroesophageal reflux disease. A study of pathophysiology, clinical diagnosis and management"

- Lars Rydberg 1999 "Management of gastroesophageal reflux disease by antireflux surgery. Studies on pathophysiology and mode of optimising surgical therapy"
- Cecilia Hagedorn Engström, 2004, Operation for gastroesophageal reflux disease – studies on mode of action and how to improve functional outcomes
- Erik Johnsson, 2005, Self-expandable metallic stents in the upper gastro intestinal tract
- Mikael Johansson, 2004, Evaluation of management strategies in the surgical treatment of gallstone diseases.
- Urs Wenger, 2006, Esophageal stenting in the palliation of malignant stricture
- Srdjan Kostics 2006 Aspects and the diagnosis and treatment of patients with achalasia
- Anders Edebo, 2007. The oesophageal mucosa in reflux disease – endoscopic appearance and tissue structure
- Henrik Bergquist 2007. Aspects on the management of patients with esophageal cancer
- Mats Andersson 2008. Radiological evaluation of esophageal function in dysphagia with special emphasis on achalasia.
- Gunnar Herlin 2011. Nuclear Medicine Imaging of lung and esophageal cancer
- Farshad Frozanpor. 2011. Issues relevant to the endoscopic and surgical management of pancreatic cancer
- Louiza Loizou. 2015. Pancreatic ductal adenocarcinoma: Computed tomography for diagnosis, local staging and prediction of postoperative complications
- Mikael Lund. 2016 Cardio- respiratory adaptation to one lung ventilation and neoadjuvant treatment for cancer of the esophagus

International appointments

- Previous board member of EAGEN
- Previous President of EAGEN
- Previous chairman and board member of IWGCO (International Working Group for Classification of Oesophagitis)
- Previous board member of ISDE (International Society for Diseases of the Esophagus)
- Previous president and board member of ESE (European Society for Esophagology)
- Previous chairman of the UEG Education Committee
- Previous independent member of UEG Education Committee

National appointments

Previous board member of Swedish Surgical Society
 Previous chairman of the Swedish Society for Upper Abdominal Surgery
 Chairman of the Swedish National Register for Esophageal and Gastric cancer
 Previous board member of Swedish Society of Gastroenterology,
 Swedish Cancer Associations Panel for Studies of Carcinoma of the
 Esophagus and Stomach
 Swedish Cancer Associations Advisory Panel for Studies of Carcinoma of the
 Pancreas

Honorary Membership:

Hungarian Society of Gastroenterology
 Czech Republic Society of Gastroenterology
 Swedish Society for Upper Abdominal Surgery

Previous Editorial board member:

GUT
 Scandinavian Journal of Gastroenterology
 Journal of the Swedish Medical Association
 Diseases of the Esophagus

Regular assignment as referee for:

GUT
 Scandinavian Journal of Gastroenterology
 Journal of the Swedish Medical Association
 Diseases of the Esophagus
 European Journal of Gastroenterology and Hepatology
 Digestion
 Annals of Surgery
 British Journal of Surgery
 World Journal of Surgery
 Digestive surgery
 Digestive diseases

Visiting Professor

University of Adelaide Australia, Departments of Gastroenterology and
 Surgery. 1990-1991
